

ENERGY 2012

International Conference

organized by the Association of Energy Sector Specialists

under the sponsorship

**of the Ministry of Infrastructure and Energy, Ministry of
Education and Science, Ministry of Environment, Mining and
Spatial Planning,
Ministry of Economy and Regional Development, Serbian
Chamber of Commerce and public enterprises EPS, NIS a.d.
Novi Sad, EMS, Srbijagas**

Zlatibor, 27.03 – 30.03.2012.

Second notice

ENERGY 2012

At the **28th ENERGY 2012** Symposium, the predominant discussion will take place in form of two round tables, on the following topics:

- ⌘ development challenges of the European energy sector
- ⌘ the concept of Serbian energy sector development by the year 2020

The participants in the discussion will be keynote speakers from the country and abroad, representatives of the national authorities, energy companies and scientific and research institutions.

In the scientific and professional part of the Symposium, the main topics will be:

- ⌘ strategic planning of energy development and energy policy
- ⌘ energy system analysis (contemporary analyst methods and energy system modelling tools, energy polls, system analyses, results);
- ⌘ interrelations among environment protection, energy efficiency and optimal energy development;
- ⌘ heat and mass conveyance and energy process modeling (CFD and other programme packages serving for enhancement of energy equipment and plant efficiency);
- ⌘ contemporary scientific research, technical and technological solutions and innovation in energy sector;
- ⌘ student and academic projects;
- ⌘ promotional and marketing presentations and expositions on energy achievements in energy economy, industry, utility systems, transport, building, renewable and new energy sources.

At the **ENERGY 2012** Symposium, two special awards of the Energy Association will be delivered for special contribution to the implementation of the Republic of Serbia's national programme in the area of renewable sources in 2011 (business, banks/insurance companies) and a special award of the Energy Association for the best financial performance in the Republic of Serbia's energy economy in 2011.

There are very few congresses in Serbia –scientific, professional, state and private initiative fairs, such as the twenty-seven years' series of **ENERGY 1978, ... ,ENERGY 2011**, each and every one of them leaving a significant and positive impact on the further scientific and energy sector development. This twenty-eighth international **ENERGY 2012** Symposium is going to be like that as well. It will differ from the previous ones by the chance for twenty of the papers submitted, written in Serbian or in English, selected by the review jury of the Organising Programme Committee, after special reviews, to be published in renowned international magazines – e.g. our magazine ENERGIJA (ENERGY).

Further information on the Symposium is available at the **ENERGY 2012** Symposium Organisers.

*Chairmen of the Organising Committee: Professor Dr. Milun Babic
Secretary of the Organising Committee: Nada Negovanovic*

EXHIBITIONS, PROMOTIONS, PRESENTATIONS, SPONSORSHIP AND ADVERTISING

Collaboration with the Association of Energy Sector Specialists is the best way to communicate with your business partners, to prove and enhance your business reputation and to present the success of your company to all influential people in Serbia and worldwide.

It is our desire to carry on with promoting effectively your products, maintaining and strengthening mutual professional confidence as well as finding new and cultivating the existing joint objectives.

The Conference organizer invites all the interested companies in the energy sector from the country and abroad to take part in the sponsorship, promotion, presentation and advertising in the concluding Conference Program and Collection of Works.

In that connection, a **MARKETING PROGRAM** has been conceived. Its content is to ensure conditions for promotional and marketing presentations and exhibitions of products and services pertinent to the achievements in the field of energy, industry, public utilities systems, transportation industry, building industry, renewable and new energy sources.
